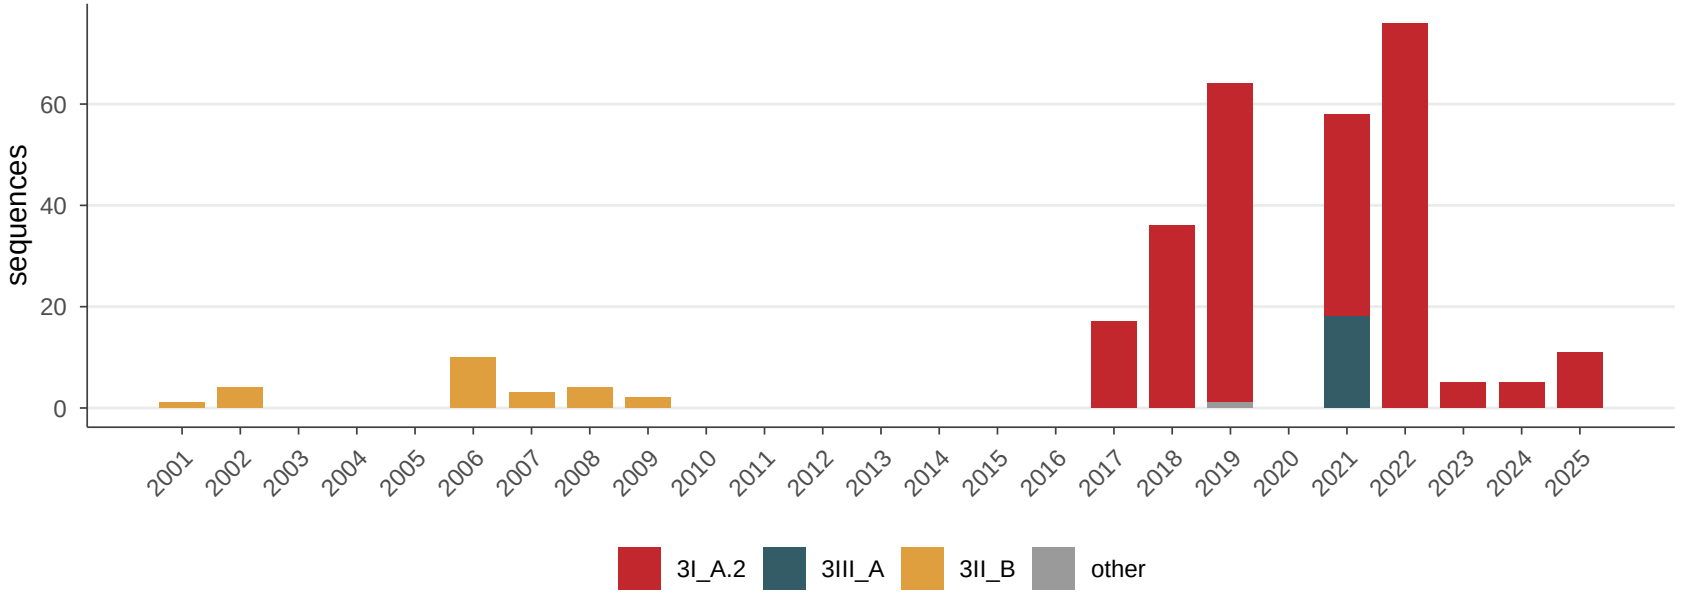
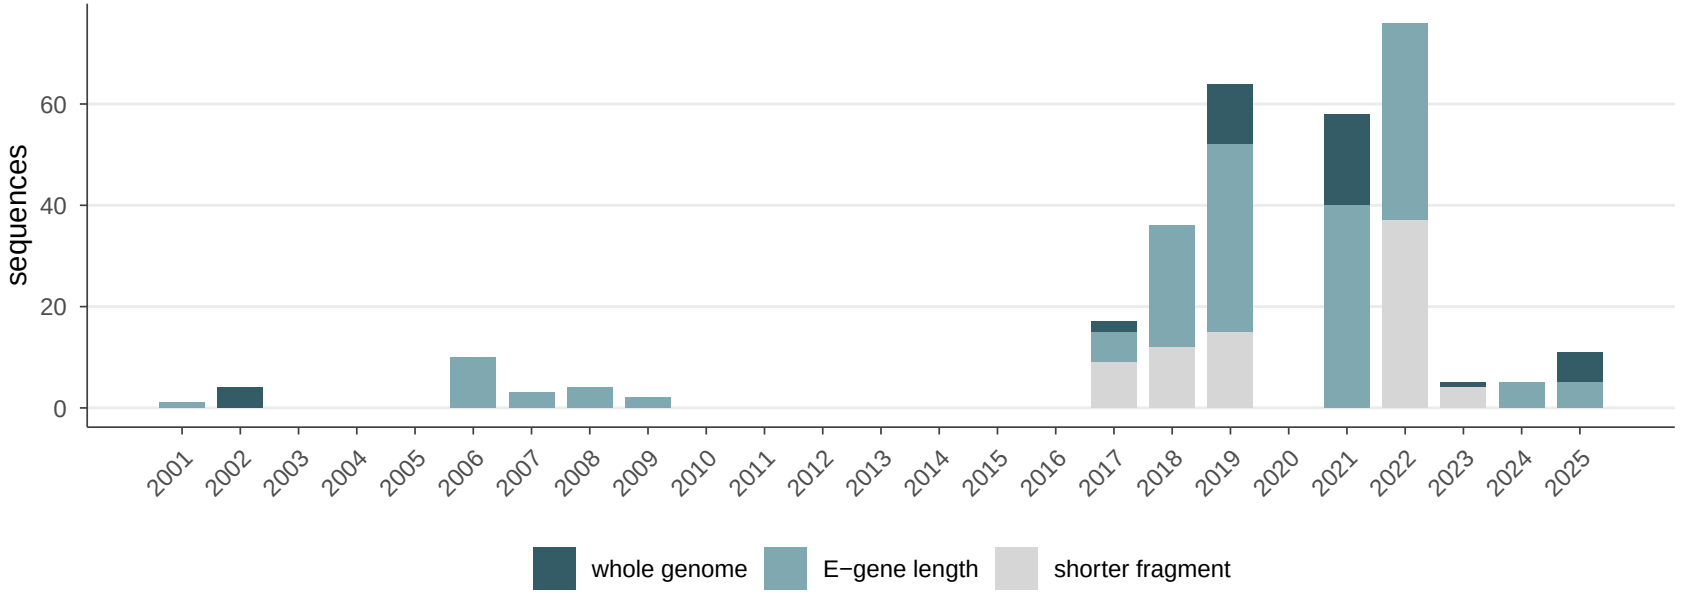
DENV−3 sequences from Bangladesh, by year and lineage

296 dated sequences (a further 14 carry no collection date). Years with no public data: 2003, 2004, 2005, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2020



The same sequences by how much of the genome they cover



Whole genomes are what the dated analysis uses; E−gene−length sequences carry the year−to−year continuity.
